

Activu Opens New Visual Network Center in Rosslyn

ARLINGTON, VA – June 9, 2008 – Activu Corporation has opened a state-of-the-art Visual Network Center in the Rosslyn area of Arlington Virginia, the new home of Activu's Federal Solutions Group.

Activu's Visual Network Center brings its innovative information visualization and display solution for Operations Center control rooms directly to federal civilian, military, intelligence and homeland security sector clients in the greater Washington area.

"The Visual Network Center is more than just a demonstration facility," said Paul Noble, Activu CEO, "The Center is a solution incubator where we can work directly with our clients to create custom systems tailored to their needs and ultimate success."

Activu is changing the paradigm of operations control from a limited location-based model to a limitless net-centric solution. Creating a collaboration ecosystem that begins in the control room and extends across the organization and geography, Activu's distributed network-based visualization system enables a wide range of information to be dynamically accessed, displayed and shared by *anyone, with anyone, anywhere, on any display* from large display walls, panels, desktop monitors and laptops.

The new office is located at 1100 Wilson Blvd., Suite 1225, Arlington VA 22209, and the Federal Solutions groups can be reached at (703) 527-5550.

About Activu

Founded in 1983, Activu Corporation, formerly Imtech Corporation, is a software and services company delivering distributed information visualization solutions supporting compartmented information sharing and deep collaboration within mission-critical command and control environments. Activu software is a powerful, open and scalable network-based solution running on COTS hardware.
